

**PATENT CLAIMS**

1. A hinge consisting of first (1, 9) and second (2, 10) bracket parts, wherein the first bracket part is formed with a pin (4), while the second  
5 bracket part is formed with a hole (7) to receive the pin, c h a r a c t e r -  
i z e d in that the hole (7) is made in two sections, one section having a larger diameter than the other section, and that a shoulder (5) is provided on the pin (4).
- 10 2. A hinge according to claim 1, c h a r a c t e r i z e d in that the shoulder (5) is provided on a portion of the surface of the pin (4), and that it is dimensioned to pass the section of the smallest diameter by pressure.
3. A hinge according to claim 1, c h a r a c t e r i z e d in that the shoulder  
15 (5) is provided near the free end of the pin (4).
4. A hinge according to claim 1 or 2, c h a r a c t e r i z e d in that the section of the hole of the largest diameter is longer than the section of the smallest diameter.
- 20 5. A hinge according to claims 1 – 4, c h a r a c t e r i z e d in that the first bracket part (9) is formed with a locking part (13, 18, 20) which cooperates with a locking part (16, 17, 19) on the second bracket part (10).
- 25 6. A hinge according to claim 5, c h a r a c t e r i z e d in that the first bracket part (9) is formed by a box-shaped part (18) which is terminated on a portion of its lower side by a plate-shaped part (13) having larger horizontal dimensions than the box-shaped part (18), and that the plate-shaped part has a free surface (20) which is flush with one free end of the box-  
30 shaped part.

7. A hinge according to claim 5 or 6, c h a r a c t e r i z e d in that the locking part on the second bracket part is formed by a box-shaped part (19), which is terminated at its one end by a block-shaped part (13) having larger horizontal dimensions than the box-shaped part (19), and that the
- 5 block-shaped part has a free surface (17).
8. A hinge according to claims 1 – 7, c h a r a c t e r i z e d in that the bracket parts are made of the same material.
- 10 9. A hinge according to claim 8, c h a r a c t e r i z e d in that the material is hard plastics.
10. Use of a hinge according to claims 1 – 9 for a child safety barrier.
